Exploratory Data Analysis of Craft Beers: Data Profiling

DataCamp Team

~1 minute

In this tutorial, you'll learn about exploratory data analysis (EDA) in Python, and more specifically, data profiling with pandas.

Learn more about Python

[Exploratory Data Analysis in Python](#)

Learn how to explore, visualize, and extract insights from data using exploratory data analysis (EDA) in Python.

[Bayesian Data Analysis in Python](#)

Learn all about the advantages of Bayesian data analysis, and apply it to a variety of real-world use cases!

[Introduction to Python](#)

Master the basics of data analysis with Python in just four hours. This online course will introduce the Python interface and explore popular packages.
